

Pain and Addiction Albro Lake

The Pain Management Unit at the QEII Health Sciences Centre, in partnership with the North End Community Health Centre, has opened a new collaborative, inter-disciplinary clinic. **PAAL** is a community-based tertiary care clinic available to all Nova Scotians by referral. (see attachment)

Target Population

1. Patients with chronic pain and any of the following:
 - Active addiction
 - History of addiction
 - High opioid dose
 - Opioid aberrant behaviours
 - No primary care prescriber
2. Patients with addiction, in or out of treatment, suffering from acute or chronic pain.
3. Patients prescribed opioids for complex pain management problems transitioning from inpatient to outpatient care.
